#### ⚠ WARNING

Die oben genannten Warnungen müssen befolgt werden, um mögliche Verletzungen des Benutzers zu verhindern.

#### Important safety instructions

#### ⚠ WARNING

Read all safety warnings and instructions. Failure to follow the warnings and instructions may result in electric shock, fire, or serious injury.

#### ⚠ AVERTISSEMENT

Lisez tous les avertissements et instructions de sécurité. Le non-respect des avertissements et des instructions peut entraîner un choc électrique, un incendie ou des blessures graves.

- Recharge only with the charger specified by the manufacturer. A charger suitable for one type of battery pack may create a risk of fire when used with another battery pack.

• When the battery pack is not in use, keep it away from other metal objects, like paper clips, coins, keys, nails, screws, or other small metal objects, that can make a connection from one terminal to another. Shorting the battery terminals together may cause burns or a fire.

• Under abusive conditions, liquid may be ejected from the battery; avoid contact. If contact accidentally occurs, flush with water. If liquid contacts the eyes, additionally seek medical help. Liquid ejected from the battery may cause irritation or burns.

• Do not use a battery pack or appliance that is damaged or modified. Damaged or modified batteries may exhibit unpredictable behavior resulting in fire, explosion, or risk of injury.

• Do not expose a battery pack or appliance to fire or excessive temperature. Exposure to fire or temperature above 130°C may cause an explosion.

• Follow all charging instructions and do not charge the appliance outside of the temperature range specified in the instructions. Charging improperly or at temperatures outside of the specified range may damage the battery and increase the risk of fire.

• Have servicing performed by a qualified repair person using only identical replacement parts. This will ensure that the safety of the product is maintained.

• Do not modify or attempt to repair the appliance except as indicated in the instructions for use and care.

• Save these instructions for later reference.

#### Safe battery disposal

• All rechargeable batteries will degrade over time, eventually limiting the ability to retain a charge. This product contains a lithium-ion rechargeable battery pack, which must be disposed of properly when it will no longer retain a charge.

• Never dispose of batteries in the garbage. Disposal of batteries in the garbage is unlawful in some countries. Please collect them separately and properly recycle them under the local regulations.

• For information on recycling this battery:  
- Call2Recycle: Call 1-800-822-8837 or visit [www.call2recycle.org](http://www.call2recycle.org). (For the US and CA)  
- Contact local, country or state recycling centers for information on proper disposal.
